## SHANAHAN PRESIDES AT MEET

SPRINGFIELD, Ill., Sept. 20.—J. E. Taggart of Freeport was elected president of the state board of agriculture by the house of delegates here today and twenty five vice-presidents were named to constitute the new board after five hours had been spent over contests in five districts. Taggart will succeed Len Small, of Kankakee, a candidate for state treasurer on the Republican ticket, whose term expires next January. Contests developed in the twelfth, sixteenth, twentieth, twenty-first and twenty-third districts where it was alleged mushroom growth agricultural and horticultural societies have sprung up for the purpose of swindling district elections inasmuch as the law provides for the representation of such societies in the election of board members. The credential committee seated delegates from "recognized" agricultural associations and those appointed by boards of supervisors. George H. Madden of Mendota in the twelfth district, once president of the board of agriculture, was defeated for re-election by Louis Goen of Ottawa. In the sixteenth district, Walter Ireland, of Peoria, defeated J. P. Code of Bradford, present member. Elias Watkins of Petersburg, twentieth district, succeeded in holding his seat against George Peake of Winchester. In the twenty first district Charles M. Woods, incumbent, of Springfield was defeated by W. O. Converse also of Springfield. Samuel E. Moore of Williamsville, was a strong contender for the place. Thomas Marshall of Carbondale, twenty third district was returned after a spirited fight. All vice-presidents from the ten districts comprising Cook county were returned as follows: First—Martin Conrad. Second—B. H. Heide. Third—John McCord. Fourth—Frank M. Mares. Fifth—August W. Miller. Sixth—John Dill Robertson. Seventh—J. J. Macomb. Eighth—Louis F. Wilk. Ninth—J. F. Rehm. Tenth—E. W. Davis of Libertyville. The other members of the board are: Eleventh—H. O. McChesney, Glen Ellen. Marshall, Carbondale. Twenty Fourth—John W. Shaw. Twenty Fifth—Joab Goodall, Marion. David E. Miller and B. H. Heide.

## ESTIMATE AMERICAN GIFTS TO WAR RELIEF DISTRIBUTE YEAR BOOK OF CAR- NESIE ENDOWMENT FOR PEACE

Total of \$28,896,277.36 Given to the Sixty Principal War Relief Societies—Unknown Contributions Probably Would Raise all the Figures Appreciably.

Washington, Sept. 20.—Americans' gifts to the sixty principal war relief societies are estimated at \$28,896,277.36 by the new Year Book of the Carnegie endowment for international peace being distributed today. A total for Belgium of \$19,269,000 or over one third of America's total contributions. Twelve organizations raised more than \$2000,000 for France specifically, while \$594,000 was raised for England, \$12,000 for Russia, and \$313,000 for Serbia. This, with the Belgian total, makes a grand total for the entente allies of \$13,000,000 not including some \$3,000,000 of American Red Cross funds which were very largely used in allied countries. The German red cross received \$2,750,000 from this country, with three German-American relief bodies bringing the entire central power contributions to \$3,750,000.

Contributions for dependent nationalities effected by the war's ravages total over \$9,000,000. By far the largest single fund of this sort is the American Jewish relief committee with \$4,000,000 to which should be added almost \$900,000 more from the central committee for the relief of Jews and \$223,000 from the People's Relief committee for the Jewish war sufferers.

The Poles have received \$473,000 and the Syrians and Armenians \$420,000.

The American red cross has received from all sources \$2,231,000, including \$651,000 from its New York state board. Smaller funds and unknown contributions probably would raise all the figures appreciably. The largest personal contribution is given as a million dollars. The total gifts represent about one twentieth of the \$600,000,000 spent here by the allies alone on specific war munitions.

## RETURN VERDICT OF ACCIDENTAL DEATH IN BRIDGE SPAN COLLAPSE

QUEBEC, Sept. 20.—A verdict of accidental death was returned by the coroner's jury here today at the inquest into the loss of 13 lives in the collapse of the central span of the Quebec bridge on Sept. 11th. There was expert testimony that the hoisting jacks were not responsible and that the span did not buckle, but it was tilted and strained in a manner it was not intended to withstand. The same methods of elevating the span, it was testified by experts would probably be used when a new link is put in place, the the socket casting would be a different material.

## HUGHES ADDRESSES MILWAUKEE CROWD

Outlines His Attitude Toward the Protection of American Rights

## REPLIES TO DEMOCRATS

Deals Chiefly With Subjects Discussed in President Wilson's Acceptance Speech

## TERMS SHIPPING BILL MENACE

MILWAUKEE, Wis., Sept. 20.—Charles Evans Hughes, before a cheering audience that filled the big auditorium here outlined tonight his attitude toward the protection of American rights as follows: "I propose that we shall protect and enforce American rights on land and on sea without fear and unflinchingly with respect to American lives, American property and American commerce. We have no unstated policies, no secret understandings, no intrigues. We stand foursquare to the world representing the United States and its interests and its interests alone, first, last and all the time."

Mr. Hughes' reference to American rights was contained in a speech in which he made reply, one by one to what he termed Democratic claims for having aided business and outlined the Republican program. In so doing he dealt chiefly with subjects discussed in President Wilson's speech of acceptance. The shipping bill was characterized as a menace, the sooner removed the better. The Underwood tariff he called "a measure that must be undone if we are to have a sure basis of prosperity in this country."

He reiterated that the anti-trust law instead of being clarified by definition had been made more uncertain. The federal reserve act the nominee said, far from being a Democratic measure, pure and simple was taken in great part from material supplied by a Republican commission and a draft of a Republican bill.

The child labor law, Mr. Hughes said, failed to protect hundreds of thousands of children at work in various states under Democratic administration. "Our opponents claim to have emancipated children," he said. "They have not emancipated children. Call the roll of states and you will find that the states where children are emancipated from too early labor are Republican states and that the states where child labor still exists are under Democratic control."

The federal workmen's compensation law, the nominee reiterated, should be made to protect others than the federal employes under its scope. It should extend to all persons engaged in pursuits of interstate commerce.

In outlining policies, Mr. Hughes said he stood for protection of American rights, a protective tariff for the principle of arbitration of industrial disputes, the protection of labor, national resources and "the national treasury" for efficiency in government and for "a government according to the processes of reasoning."

In his reference to the shipping bill and the Underwood tariff, Mr. Hughes said in part:

"There are two acts which are stated to be aids to business which on the other hand were direct blows to American business. I will mention the last of these first, the shipping bill, a bill which is a menace to American industry."

"It unjustifiably introduces the government into the shipbuilding business. It may at this time be practicable in operation because the extraordinary conditions which preclude the purchase of ships at normal prices or the building of ships in yards already overworked. But it remains a menace to the shipping industry and the sooner that 'aid to business' is removed as a menace of the great industry of this country the better it will be for the shipping interests of the United States."

"Then there is that other 'aid to business,' but which has been a serious blow to business. I mean the tariff formulated in 1913 which removed the proper protection needed for the development of American industry. I have said that abuses had to a large degree been corrected. Governor Philip (the chairman) was good enough to refer to some efforts that it came to my lot to put forth in that direction."

"I put the flag up in New York that the public interest was supreme. I have never taken that flag down."

## FLOODS IN CHINA MAKE NEARLY A MILLION PEOPLE HOMELESS

Reports from American Consul at Nanking say Hwai River Has Inundated an Area of About 7,000 Square Miles.

Washington, Sept. 20.—Nearly a million people have been made homeless by one of the greatest floods on record in that section of China where the American red cross already has spent \$600,000 for flood protection and where the \$30,000,000 loan for reclamation work which was postponed by the war was to have been spent. Reports to the state department today from the American Consul at Nanking said the Hwai river had inundated an area of about 7,000 square miles in Anhui province. Appeals for aid have been sent out for the homeless who virtually are entirely dependent on charity as all the autumn crops were destroyed.

The flood occurred in a flat, alluvial section where the north-south passage of Grand Canal had dammed up a large lake and allowed the Hwai river too little space to carry off the excess of water.

Today's delayed advices described conditions several weeks ago, but officials believe there probably has been little improvement. In the case of previous floods in that district, the waters have been held for long periods by the alluvial soil.

## HOPE OF AVERTING STRIKE LESSENS

Mitchel's Appeal to Transit Company Heads Meets With Refusal

## PREPARE FOR WALKOUT

Apparently Only Hope of Calling Off Union Officials Lies in Today's Conference

## HUNDREDS ATTACK FOUR CARS

NEW YORK, Sept. 20.—Rioting was renewed here tonight in connection with the car strike after efforts of Mayor Mitchel and others had failed during the day to effect a settlement of the strike.

Several hundred strikers and their sympathizers who attacked four surface cars, engaged in a running fight with police reserves during which several persons including a woman, were hurt. Many arrests were made.

When Police Commissioner Woods was told today that six year old Louis Rodelli was dying, a victim of a brick hurler, issued a warning to the strikers that all missile-throwers arrested hereafter will be given the limit.

Hope of averting the threatened strike of 700,000 union workers here in sympathy with the carmen was diminished. Mayor Mitchel announced that a personal appeal he had made to transit company heads to treat with the strikers had met with a flat refusal. Meantime, preparations were continued by union leaders for the walkout which, if carried out may paralyze industry thruout the city.

Apparently the only chance now of calling off the union officials in their determination to "tie up New York" by Monday next it was said tonight lies in a conference to be held tomorrow between a citizens' committee and the strike leaders.

Approximately 10,000 women, wives of the striking carmen and members of trade unions, it was announced tonight, will act as pickets beginning tomorrow. It was said they contemplated riding on subway and elevated railway trains in efforts to induce the motormen and guards to desert their posts and join the union.

Mayor Mitchel directed his appeal to the transit companies thru Theodore P. Shonts, president of the Interborough Rapid Transit and the New York railway companies. He declared Mr. Shonts told him there was absolutely no basis on which the companies would talk with the Union men as "the strikers had placed themselves beyond the pale."

## ENGLAND EXPRESSES REGRET FOR EXAMINING STEAMER CEBU

Adherents of Both Candidates Look to the Official Canvass to Declare the Winner—Barr Has Total of 100,908 to 100,956 for Brundage

Barr of Joliet to the Cook county line with 48,259 plurality over Edward J. Brundage of Chicago, his chief opponent in the race for nomination on the Republican ticket for attorney general.

Barr's downstate figures which were announced from a number of the counties today were 48 votes short of the unofficial Cook county plurality polled at last Wednesday's primary by Mr. Brundage.

The downstate totals were:  
Barr ..... 79,453  
Brundage ..... 31,194  
Cook county unofficial figures

gave:  
Barr ..... 21,455  
Brundage ..... 69,762

The combined downstate and Cook county vote with Cook, Scott and Lawrence counties unofficial, totaled:

The national and state Democratic administrations will be endorsed together with the constructive legislation passed at the behest of President Wilson.

Other planks in the platform will, it is said, urge state supervision of private banks and approve full suffrage for women.

## FRENCH REPULSE VIOLENT ATTACKS

Dislodge Germans From Northeastern Part of Village With Bayonet

## TEUTONS WITHDRAW

Austro-Germans Put Down Heavy Russ Assaults in Lutsk Sector of Volhynia

## DRIVE ROUMANIANS BACK

In an effort to retrieve in part their lost territory the Germans Wednesday despite the bad weather made violent attacks against the French over a three mile front in the region of the Priez farm and Bouchavesnes north of the Somme.

During the fighting the Germans penetrated the northeastern part of the village of Bouchavesnes, but here the French met them with the bayonet and dislodged them. Four assaults at the Priez farm in which the Germans came on in waves were repulsed by the French, whose observers assert that the Germans at last withdrew in disorder leaving many dead behind them.

On the British front the inclement weather still holds the opposing sides to artillery duels.

In the eastern theater in Russia and Galicia both Berlin and Vienna report the repulse of heavy Russian attacks in the Lutsk sector of Volhynia and southeast of Lemberg in Galicia. Local successes for the Russians in the Carpathians were conceded by the Teutonic allies who say however, that on the whole the Russian attacks in this region were repulsed.

Down in Transylvania where the Roumanians have been fighting against the Austro-Hungarians the invaders apparently have met with a serious reverse in the region of Hatszeg where they have been driven back by the Teutonic allies to the Transylvanian Alps and the town of Petroseny and the Szurdok pass, thru which they entered Transylvania in this region, recaptured from them.

The Bulgarians, according to Athens, have hastily evacuated Vasilitsa, at the extreme end of the Macedonian line and fallen back upon Svedra for a stand in previously prepared entrenchments which, if captured will necessitate the evacuation of Monastir, Serbia.

Berlin reports that the Germans who are co-operating with the Bulgarians have repulsed entente thrust near Florina, Greece. Rome admits that the Italians on the southern slopes of Monte Beles have been driven back by the Bulgarians. Artillery fighting predominates in the British and in French fronts.

Constantinople reports successes for the Ottomans over the Russians and British respectively in Persia and along the Tigris.

**The Sherman-Gompers Debate.**  
Senator Sherman's challenge to President Samuel Gompers of the American Federation of Labor for a debate has been accepted. The date has not been fixed but certainly the public will hear a debate worthy of the name, for these two leaders are both exceptional not only in the fund of information at hand but in their fluency of expression. There is enough of personal feeling between the two to add zest to the contest greater than that which comes from a mere war of words. Neither of the debaters when the arguments have been concluded will have changed the slightest in opinion, but the public will have had an opportunity for enlightenment.

### Pork Prices Still Ascend.

Livestock statistics show that there have been two and a quarter million more hogs received at the chief market centers of the United States thus far this year than was true a year ago. This big increase in the supply has not had the tendency of lowering prices, and, in fact, prices are \$3.50 to \$4 higher now than at the same time last year. There is undoubtedly a tremendous demand from abroad for all meat products and with at least a normal home demand the conditions have brought about record prices. Top hogs sold Tuesday at \$11.60.

Evidently there is no cessation of the demand and men familiar with market conditions believe that the top has not yet been reached. The trouble is that high prices are not

## Rippling Rhymes By WALT MASON

### VACATIONERS

I've been where countless people went for recreation and repose, where forty kinds of seas are spent for motor rides and things like those. There were, for those who had the price, all kinds of harmless cheerful snares, and there was every known device to make a man forget his cares. I sat and watched them, all day long, beneath a quaking aspen tree; to find so sad and glum a throng, a funeral you'd have to see. The tourist plodded on his way, as though he'd lost his dearest friend; his face despondent, seemed to say, "I'll see this ordeal to the end." With gloom expressed in every act, he went the rounds where others went, and saw the Rainbow Cataract and gazed on fakers in a tent. The Windy Cavern he explored, and trailed along some dizzy curve, and all the while he looked so bored the guides and spiclers lost their nerve. I saw ten thousand tourists thus; they jogged along through scenes sublime, and looked as though they'd like to cuss so vain a waste of precious time.

limited to pork but apply to practically everything which enters into living cost and it takes many more dollars now to meet the everyday expenses than was true even two or three years ago. Evidently the Democratic tax on the high cost of living has not brought relief.

### Business in Education.

The opening of two colleges here yesterday with largely increased attendance means not only that two educational institutions are in prosperous condition, but also that two business institutions are developing in a way beneficial to the whole community. The first and strongest influences of the colleges are educational but in Jacksonville they hold also a very important place in our business world. Other cities specializing in coal or iron or some other given line of trade, but here we specialize in education, fitting young men and women for the duties of life and at the same time conducting business enterprise of the highest importance.

The presence of so many hundred young people in Jacksonville is of distinct interest to the merchants here. These young people are consumers and what they buy adds largely to the sum total of business. The sums the colleges pay out in salaries and for supplies also figure prominently in the Jacksonville business affairs, and it is a matter for common congratulation that the year has opened so auspiciously.

### Two Named for Senator.

The Galesburg Republican-Register has suggested that B. M. Chipfield, who recently failed in nomination as congressman at large, would make a splendid candidate for the U. S. senatorship to succeed Senator Lewis. The Galesburg paper noticed that a Chicago paper is now booming Medill McCormick for that position and suggests that Mr. Chipfield is well worthy of such an honor. Mr. McCormick's course in the Illinois legislature has been helpful to the state and he is commonly credited with sincerity in his statement that he "is in politics for what he can give and not what he can get." Mr. Chipfield has been prominent in Republican politics for a number of years and is an especially able lawyer. McCormick and Chipfield as candidates would be certain to make an interesting contest.

### A Sign of Progress.

Recently thirty five McLean county supervisors and some other residents of that county made a special trip to Danville to inspect some of the hard roads being laid in Vermillion county with bond issue funds. The week previous a party of Adams county farmers visited McLean county and afterward Livingston county to get into touch with the crop improvement bureau there. These expeditions are notable in that they illustrate the present day tendency of seeking to benefit by the experience of others, and also pointing to the fact that crop and road improvements are recognized as two of the most important questions before the public. The Adams county farmers made their journey in automobiles and this fact brings the thought that the automobile is having its marked effect upon farm life and is giving to the land operator a broader vision as it enables him to keep in touch with methods and progress in territory for many miles surrounding his home. A few years ago when the farmer used only horse drawn vehicles, territory reached in ordinary travel was in a radius of ten to fifteen miles of the home place, but now fifty, seventy five or a hundred miles or more is the radius.

## OLD JACKSONVILLE

**"A Screaming Farce"**

By Enaley Moore.

Member Illinois State Historical Society.

The Public Library has developed from a movement for a free reading room, begun in 1874, by the ladies of Jacksonville, in order to give a place for men to go for entertainment in opposition to the saloon. It came about after the Woman's Temperance Crusade, which spread over the land at that time.

Some years before, the Odd Fellows had started a library, and at this time, they generously contributed the books they had collected to the good cause, and, from these beginnings, came our handsome and complete intellectual storehouse of today. But the library had a nomadic existence at first, wandering from the Odd Fellows hall to some first floor location, and then being located for some years in the Y. M. C. A. building. At first, some of the ladies saw to it, notably Mrs. Washington Hook; then Charlie Alexander, and perhaps John H. Woods, had charge. As it had no home of its own, at first, so like homeless humanity, it had a struggling support.

Among other schemes to help it was the entertainment referred to below, about 1878. That was man-

aged by a well known gentleman, then, perhaps engaged in seeing that people paid their gas bills monthly, who has since grown into a Philanthropist. That he was fitted for the task the bill below shows. No old citizen need be told of the histrionic abilities of the cast, every one of whom was a "star," from Charlie Stewart to Judge Whitlock. Stars that could shine in a dark night, as well as on a stage. Perhaps they would have looked best, as actors, on a two horse stage, going out of town.

Of those connected with the entertainment, in Strawn's Opera House, probably only Samuel W. Nichols, Jas. M. Epler, Mary Berdan Tiffany, John G. Loomis, Geo. J. Dod, the Hammond girls, Edward A. Ayers, John A. Glover, Ida Wood Atwater and Carrie Whittlesey remain. Even these have kept up to the times, and become "Movies," for Nichols has travelled all around the World, Epler is in Seattle, Mrs. Tiffany in Springfield, G. J. Dod in Greenwood, Mo., Dr. E. A. Ayers in New Jersey, John A. Glover in Champaign, Miss Whittlesey was in Ottawa, Miss Hammond is in Boston, Mrs. Atwater in Lincoln, Neb., and John Loomis in Peoria.

It must have been a great show!

### SOME FARM TOPICS

#### Hog Cost Accounting

Several Farm Bureau members are keeping account of the cost of raising hogs this year. Special record books for this purpose were prepared at the Champaign office for use in all the counties by as many farmers as were interested in this problem. Altogether there are about 200 of these records kept this year in Illinois. H. M. C. Case who is co-operating with the various county agricultural agents in this work spent a day here recently. We visited the different men here who are keeping records so he could see the conditions under which the hogs are handled and see about how the figures look at this time. He found a fine set of records here and some unusually good results in hog management.

R. B. Orndorff, Rudolph Steger and V. A. Wertsch are keeping records in the south part of the county and their systems of management are different. Mr. Orndorff is forcing his spring hogs along with a self-feeder. In the central part of the county records are being kept by Frank Harris, Wilbert C. Sommer, S. L. Ackerman and C. B. Oswald. Mr. Sommer sold some of his spring pigs the other day at an average weight of 195 pounds, and got in on so high a market that his profit will be great. Records on one period of feeding of Frank Harris' spring hogs showed they were returning \$2 a bushel for the corn, provided they are cashed in on as high a market as at present. They are ready to sell now and so are those of S. L. Ackerman. P. A. Naffziger and W. H. Garber in the north part of the county are also keeping records. All these men have grade hogs excepting Mr. Sommer of Pekin who has some registered Chassey Whites and Mr. Garber of Washington who has registered Duroc Jerseys.

When these records all over the state are completed for the year, and the results summarized, we can tell which of the various plans of management pay best. Some are feeding tankage, some use lots of middlings, others use considerable skim milk, some have alfalfa, some feed the pigs light until they are well grown and others feed all they

will eat all the time. Some valuable comparisons will be possible. The results of this demonstration on so many farms will of itself be worth more than a year's cost of membership in the Farm Bureau.

A summary of the results all over the state will be prepared for each member.

**Adams County Farmers Here**

Last Saturday a delegation of 26 members of the Adams County Farm Bureau spent a half day here visiting farms on their way across the country. I had worked in the field side by side with one of these men as a boy, and I knew a number of the others, as Adams is my native county. It was a pleasure to help these men see some of the farms of interest and note how interested they were in Tazewell County methods. They stopped at the farms of Clarence Wilson, Minier; Frank Harris and County Farm, Tremont; A. L. Robinson and Sommer Bros., Pekin. They ate dinner in Pekin and left for home in the afternoon.

County Agricultural Agent.

**TRACTOR DEMONSTRATION**  
**AN ENTIRE SUCCESS**

"Perhaps the most noticeable feature of the demonstration this year at Bloomington," says Prof. I. W. Dickerson of the University of Illinois, "was the much greater proportion of outfits using kerosene as a fuel, probably 75 percent of all outfits claiming to use the cheaper fuel. This is no new thing, of course, for the motors with large cylinders and comparatively slow piston speeds; but several of the tractors with comparatively high speed four cylinder vertical motors seemed to be burning kerosene with good success. Most of these were making use of a new type of manifold, in which the intake and exhaust manifolds were combined in a single casing, the two passages being side by side, so that the incoming charge would be heated by the outgoing exhaust."

"The successful use of kerosene fuel in this type of motor will have tractor development, but upon the tractor development, but upon the automobile trade as well. The next year or two should show some very marked results along this line."

"Apparently the four wheel tractor with the automobile type of steering device is growing in popularity at the expense of the three wheel type, as practically all of the newer designs are of this type. Discussions with a good many of the farmers present indicated that in general they favored the four wheel type. The chief points brought out in favor of the three wheeled tractor were the decrease in weight and the slight increase in transmission

efficiency due to doing away with the differential gear and the ability to bring the center of the pull of the tractor and the center of draft of the plow in the same line."

"Those given in favor of the four wheel type were the much less danger of upsetting on uneven ground; more positive action in turning with a heavy load attached, better convenience for road use, and where the two right hand wheels are run in a furrow, more ease in finishing up a furrow."

"One of the chief points against the four wheeled type pulling three plows was that the center of the pull of the tractor does not coincide with the center pull of the plow. However, by running the two right hand wheels in the furrow, this objection is overcome. It was noticeable that this plan is becoming more popular, most of the newer tractors and at least one of the older machines making use of it. It seems to be largely a question of balancing the much greater ease of steering and especially in cleaning up a land against taking care of the mechanical difficulties of lubrication and bearing wear due to the tilted position of the machinery. Several firms are evidently convinced of its practicability, and its effect on the wear of the different parts will be watched with much interest."

Mrs. Walter Goltra of Houston, Tex., who has been spending the summer at the home of her parents, Dr. and Mrs. J. W. Sperry, expected to leave today for Springfield and to make a week's visit with the family of P. A. Stone.

## ILLINOIS COLLEGE SOPHOMORES OUTWIT THE EIGHTY FRESHMEN

There are eighty freshmen at Illinois college. The sophomore class numbers forty odd. From remotest times the banquet of either class has been the signal for hostilities but this year the sophomores "put one over" by holding the "banquet" earlier in the school year than has ever been true before. The banquet was served at Colonial Inn at 10 o'clock. Not a member of the class was kept away and sophomores state that few, if any, of the freshmen will know of the banquet until some time this morning.

After an excellent repast, one of Mrs. Vickery's best, the class listened to a program of toasts as follows: Irwin B. Potter, the class officer presiding.

"Women of the Freshmen Class, Observations," Elmer Gaylord.

"As a Fish Sees," Miss Anna Pessel.

"The Years that Lie Between," Leslie D. "Mud" Irwin, who left the hill suddenly in 1910 for his home in Medora and has now returned to resume his college work. Others responding to toasts were Oscar Zink, Wallace Hembrough, Allen Smith, Miss Miriam Russell and Miss Bernice Wheeler.

The sophomores attended a "pep" meeting in the college gymnasium early in the evening. Arrangements for the banquet had all been made and when the meeting adjourned the class went quietly to the Inn and the banquet was served.

## SPLENDID RECORD MADE DURING REV. W. E. SPOONTS PASTORATE

Northminster Church Has Moved Steadily Forward Under His Leadership—Some Facts and Figures.

A large and happy gathering of congregation and friends at Northminster church last evening could look back on a net addition of 200 to the church and big reduction in the debt and best of all a united congregation, loyal to their worthy pastor and active in doing good. So the celebration of the sixth anniversary of the new church and the beginning of the pastor's sixth year were auspiciously celebrated.

Rev. W. E. Spoonst presided and offered the invocation. The musical numbers, a list of which has been published in the Journal, were finely rendered with great ability and much enjoyed. Of the addresses which followed a few words only are offered.

### The Church of the Past.

Dr. A. B. Morey spoke of the past. "I have been here 32 years and have known many of the original exiles who came here for conscience sake. They were noble people, who were willing to suffer much for Christ. Rev. E. N. Pires was a fine example. He was clerk of our ministers' association for a good while and on one occasion when Dr. Sturtevant was deploring the departure from the faith by many of the present day he pointed to Mr. Pires as a man firm and true. It was wish of Mr. Pires that one of his sons should be a minister and that wish was gratified and the son, Con., is pastor of a flourishing church in Ohio.

"The early comers were Bible students and knew the blessed book and if they heard me quote a passage incorrectly they reminded me of it. There were at one time three churches but I am glad all have united. I bring you the congratulations of State Street church, keep

on in the good work and may God bless you all."

An Estimate of the Minister. Mayor Rodgers spoke on the present. The past is gone, the future may not be enjoyed as we wish but the present is with us and now is the time to work. This church has ever been active and energetic. It has a grand building for its work, this church is to be congratulated on its pastor. When he spoke to me about leaving I told him at once what the answer would be. The church needs him, the town needs him and we all need him and want to keep him. I feel sure the present fine condition of the church and all that pertains to it are all an indication of better things in the future."

### Future Years.

Rev. E. B. Landis spoke of the future. He and Mr. Spoonst were pupils together in seminary and Mr. Spoonst humorously referred to the fact. Mr. Landis said in brief, "I am glad to be here and bring you the greetings of Westminister church. It was my pleasure to introduce Mr. Spoonst to Illinois sixteen years ago and while our paths diverged then we are together now. I think he holds the record in our church for combining the work of an evangelist and minister which he does to a wonderful degree. I congratulate the church on holding together so well while he is away. You have a fine plant here, a grand heritage and a prosperous church and now it is yours to make a grand future. You are to be congratulated on the outlook. When a man can baptize in one day forty children there is certainly hope for the future. The work of the preacher is not conversions alone but to cement in a happy union all the forces for work. This church has a fine present and every reason for a glorious future. Some persons say the lodges are all we need. In some respects the churches should imitate the lodges in systematic, benevolent work but all the good in the lodges came from the church. The lodge is all right in its place but it will not take the place of the church. We must have the spirit of Christ if we would convert the world. Your pastor will do his part but the great responsibility rests on you."

Mr. Spoonst in the name of the church, thanked the visitors for their presence.

### MR. AND MRS. A. B. CORE

#### TO THE SOLDIERS' HOME

Hassell Hopper has returned from Quincy where he went to escort Mr. and Mrs. A. B. Core to the soldiers' home. A cottage would have been provided them had they been in health but Mr. Core had to be taken to the hospital on his arrival and Mrs. Core is by no means well. Mr. Core is 86 years old and Mrs. Core 76. A daughter of William Tarzwell was in charge of the ward in which Mrs. Core was placed and that made it seem a bit more home like to both naturally felt somewhat bad at being taken to the home tho it was the best, and in fact, about the only place for them.

Mr. Hopper said the superintendent was most kind and thoughtful and anxious to do all in his power for the welfare and happiness of the brave men and their wives committed to his trust and he felt sure Mr. and Mrs. Core would soon become accustomed to their new home and glad they had such a retreat in their old age.

### UNIVERSITY EXTENSION

#### COURSE FOR TEACHERS

A special course for teachers, under the extension bureau of the University of Illinois, will be conducted here, according to announcement by Supt. H. A. Perrin. The course will be in charge of Prof. Austin E. Wilbur, of the university, and will meet two hours a day every two weeks. The first meeting of the class will be held at 7:30 o'clock Tuesday evening, Sept. 26. The course will include elementary sociology and will deal with various school problems. A certificate will be given to teachers finishing the course.

### NURSES OF DISTRICT CHOOSE

#### CONVENTION DELEGATES

Delegates to the state convention in Peoria the first week in November were elected Tuesday night at a business meeting of Graduate Nurses of the Thirteenth District at Passavant hospital. They are Miss Rose Walke, Miss Hilma Carlson, Springfield; Mrs. Sophie Strandberg and Miss Ida B. Verner, Jacksonville and Miss Clita Andrews, Decatur. The alternates are Misses Ella Walker, Lucy A. Mount, Velma Davies, Jacksonville and Miss Alice Wales, Decatur.

The next regular meeting of the district association will be Tuesday, Oct. 2, at the Decatur and Macon County hospital at Decatur. Miss Cleland, superintendent of the hospital, will give the address.

### OLD SOLDIERS DAY

#### AT STATE FAIR

Springfield, Ill., Sept. 20—Today was "Old Soldiers' Day" at the state fair and many veterans were in attendance. A parade was an interesting feature of the day's program, followed by an address by Governor Dunne. The governor spoke chiefly of the honor which is due the men who fought so valiantly for their country, and said the heritage they leave for coming generations is greater than that of either Rockefeller or Carnegie.

Thursday will be "Governor's day," and the main feature of the program will be the presence of U. S. Senator James A. Reed, who will give an address at the coliseum in the afternoon.

J. O. Priest yesterday filed a divorce suit for Susan J. Cohagen, who seeks separation from her husband, Elmer Cohagen. They were married in October, 1906, and lived together until July of the present year. In the bill Mr. Cohagen is charged with abusive language and cruelty. YEAR OPENS AUSPICIOUSLY  
AT THE WOMAN'S COLLEGE

Attendance Record is Broken—Enthusiasm Rampant When Dr. Harker Announced Gym Corner Stone Laying Plans.

Ninety seven students in the Freshman class is the new record of Illinois Woman's college made known at the first chapel exercises Wednesday when a large audience attended. Many former students and townspeople were in the company which assembled for the first day exercises. President Harker included in his remarks announcement of the laying of the cornerstone of the new gymnasium this afternoon at 3:30 o'clock. Supt. Perrin of the city schools and President Rammelkamp of Illinois college will bring words of greeting and brief addresses will be made by President Harker of the college and Dr. J. T. Pitner, president of the board of trustees. The stone will be laid by Dr. Pitner.

With members of the faculty assembled on the platform Dr. Harker led in the usual order of worship at the Woman's college. The audience joined in the singing of the doxology and then repeated the apostles' creed and sang Gloria Patria. Members of the faculty and student body led by President Harker repeated various passages of scripture and prayer was offered by Rev. W. W. Theobald, pastor of Brooklyn M. E. church. Then Miss Rena Lazelle sang "The Lord is My Light," by Alltisen, with Prof. H. V. Stearns as accompanist.

Dr. Harker's brief address teemed with helpful thoughts for the students who are just entering upon the work of the year. The president laid emphasis upon the value of a college education in the ability it gives to young men and young women to view the affairs of life in their relationship. "The young man or the young woman who takes real advantage of college courses, in after life occupies the vantage ground with a true appreciation of the best things in literature, science and history. The treasures of the past are open to them and the outlook into the future is the brighter and the better. These advantages cannot come in the same measure to those students who attend colleges of low standing. They do not come to those students who lack in earnestness and sincerity of effort."

Altho' President Harker has made so many opening day addresses there was nothing hackneyed about his remarks and the students who have been there year after year found them inspirational. It was an enthusiastic company, too, and when President Harker made the announcement of the important ceremonial to take place today when the cornerstone of the new gymnasium is to be laid, the applause was deafening.

Some Long Time College Friends. Brief remarks were made to the student body by Mrs. Belle S. Lambert and Dr. T. J. Pitner, and Miss Mothershead, dean of the faculty, made a number of announcements with reference to the college work. An interesting part of the exercises came when President Harker called upon various persons present to stand in order that the students might have this informal introduction to them. In the company of honor thus called forth were Mrs. Belle S. Lambert, daughter of a former president of the college; Mrs. R. A. Gates and Mrs. W. F. Brown, daughters of a former president of the college; Mrs. T. P. Laning, at one time dean of the faculty; Dr. T. J. Pitner, president of the board of trustees; Dr. F. A. McCarty, Rev. F. B. Madden, Rev. W. W. Theobald and Rev. E. K. Towle, all Methodist ministers.

## FARMERS STATE BANK SHOWS STEADY GROWTH

The statement of the Farmers State Bank and Trust company just made public shows a steady increase of business for that institution. The bank now has assets of more than \$100,000 and deposits as shown by the official reports which began in September, 1911, have increased steadily. The figures follow:

September 1911	.....	\$110,662
September 1912	.....	172,732
October 1913	.....	193,107
September 1914	.....	232,407
September 1915	.....	263,925
September 1916	.....	298,337

Similar increases are shown in the reports for June made in each of the six years. Some banking institutions have shown more rapid growth with fluctuating deposits, but with the Farmers State Bank and Trust company it is noteworthy that there has been growth each year of a steady and stable kind, and no statement has ever shown a decrease over one previously made.

## REV. AND MRS. L. B. RICHARDS HERE

Rev. and Mrs. L. B. Richards, formerly of this city and now of Atlanta Georgia, are in the city the welcome guests of Mr. and Mrs. H. M. Andre, their former parishoners when Mr. Richards was rector of Trinity Episcopal church of this city. Since leaving this city Mr. Richards has been located at Belleville and later at Fergus, Missouri, but for several years has been rector of the Church of the Incarnation in Atlanta. The gentleman gives encouraging account of affairs in the south in general and in particular. He says at the beginning of the present European war business was greatly depressed but of late it has wonderfully improved. H. G. Candler, a wealthy capitalist, greatly favored the farmers who had cotton which they couldn't sell by loaning them money at a reasonable rate of interest. He was elected mayor of Atlanta by a great majority and for some time has been erecting a cotton warehouse which will cover a number of acres and will serve to make Atlanta a far greater city than it now is.

Mr. and Mrs. Richards are looking remarkably well and expect to remain in the city a week or more.

## LARGEST ENROLLMENT RECORDED AT ILLINOIS COLLEGE

Freshman Class Has Eighty Members—Pres. Rammelkamp Refers to Year's Prospects and Offers Students Suggestions.

President Rammelkamp's heart beat with pardonable pride yesterday morning when he stepped on the chapel platform and surveyed the scene before him. He could look back on the condition of the Illinois college at a time he was placed at its head and compare it with its proud position today with the largest enrollment yet, 80 in the freshman class, 25 from the graduating class of the Jacksonville high school, an unusually large number in Academy hall requiring an additional dining room table, all conspired to make the time and place one long to be remembered.

In the opening exercises Rev. E. B. Landis read a portion of the third chapter of Philippians, Dr. Rammelkamp read the responsive lesson and Dean Hayden offered prayer. A selection from great oratorio of The Redemption by Gounod was sung by Mrs. Genevieve Wilson, soprano, Mrs. Julian Hall, alto; Julian Hall, bass and Robert Boyd, tenor, Mrs. Bullard accompanying on the pipe organ.

T. M. Tomlinson, superintendent of State Street church Sunday school tendered an invitation to the young gentlemen and ladies to attend the respective Bible classes in his school.

## Registration Largest in College History.

President Rammelkamp then addressed the students briefly. "A college president has to face many audiences. At commencement time it is pleasant to look back when a successful year has closed but this time we are looking forward. On behalf of the faculty and friends of the college I welcome the new students to the halls of old Illinois. Trust you will learn to love the place and enjoy your work. Our registration is the largest in the history of the college, 329 in all departments and not all in while the freshmen class numbers 80. The attendance in Whipple academy is larger than last year and so is that in nearly every class and department. The number of girls in Academy hall has so increased that another dining room table is needed.

"I welcome Mr. Robinson, head of Whipple academy; Miss Malone, teacher of German and English; Miss Dorothy Scott; Miss Margaret Dine in charge of Academy hall; and Miss Minnie Hoffman added to the conservatory faculty in the violin department.

"Through the generosity of Hon. Andrew Russell, president of the trustee board, many desirable additions to the gymnasium equipment have been made; new shower and lockers for the young ladies and many other things.

## Student Ideals.

"In college some come to look around and some to gain all the good they can and I hope the greater number of those before me will be of the latter class. Education pays but a small part or the expense of your education. Devoted persons have wrought and given that this college might exist and you are enjoying the fruits of their labor. I especially urge you to have high ideals. It has been well said that other things than study occupy far too much attention in colleges. Let us avoid that mistake. Do not be satisfied with merely passing; strive toward perfection. Let study be first and duty your paramount object. Use the 17,000 volumes in the library.

"It is noteworthy that in almost every instance the student who makes the best marks in college is the best success in life. Have high ideals of conduct on all occasions; care well for your physical condition and seek perfection in all. Do not be satisfied with passing merely in examinations and keeping out of jail. Have high ideals of service for therein lies your greatest and best object; your service to your fellow men. Much has been given you and much will be required. Let the words of the apostle be your motto: 'Forgetting the things that are behind and reaching forth unto those things which are before. I do press forward toward the mark for the prize of the high calling of God in Christ Jesus.'

The benediction by Rev. J. P. Langton ended the exercises.
